

GYS SAFE RETURN MEASURES (NEW)

The Guelph Youth Singers prides itself on having implemented the highest safety standards during the on-going Covid period. Provincial measures, and those of the Guelph Youth Music Centre have changed since we returned in person last fall, including policies around vaccinations and masking.

Starting in September, Guelph Youth Singers will strongly encourage the continued use of masks for indoor rehearsals, while understanding that some children are not able to follow these standards. We will continue to run the Hepa filter prior to, and during rehearsals, and will curate an experience for young singers that is respectful of everyone's level of comfort.

Fall rehearsals will take place outdoors at the GYMC, as well as a return to outdoor singing when spring temperatures allow. Our policies will evolve and are subject to change in keeping with Provincial Health guidelines. Families choosing not to mask or vaccinate will respect expectations of staying home when feeling ill, or knowingly have been exposed to someone else.

Markus and Marion will continue to mask at all times.
